PERSONAL PROJECTS

E-Commerce Store
Tools: NextJS 13, TailwindCSS, Prisma ORM, Planet Scale, TypeScript, ClerkAuth, Stripe
Description: E-commerce clothing store built with NextJS 13 and TailwindCSS. The website delivers a seamless shopping experience. With an intuitive admin dashboard, you can effortlessly manage your product catalog via a MySQL database. Secure transactions are made easy with integrated Stripe payment management, and ClerkAuth ensures smooth and trustworthy user authentication.

Pathfinding Visualizer
Tools: ReactJS, CSS, HTML, JavaScript
Description: A pathfinding visualizer, created with ReactJS, CSS, HTML, and JavaScript. With three powerful searching algorithms - Dijkstra's, A Star, and Depth First Search - you can visualize a path from the start and target locations. Customize your experience by generating random mazes, rearranging paths, and fine-tuning start and target locations.
